

Effective protection of bed and bedlinen against body liquids

- 1** Ideal and hygienic as protection against body liquids. Effective protection of bed and bedlinen.
- 2** Suitable for operation theatres, emergency care, ambulances etc. Also convenient to bring when travelling or on holiday.
- 3** Made of one layer thick airlaid tissue and one layer PE-film (polyethylene).
- 4** High-quality and thick airlaid tissue, bleached. From virgin fibers.
- 5** Strong, resilient and liquid safe transparent PE-film.
- 6** The airlaid absorbs the liquids in an effective way and the film prevents leakage.
- 7** With double leakage barriers along the sides, for extra safety.
- 8** The sheets are packed in bags in cartons on pallets.
- 9** Produced in Sweden.

- For disposable use.
- This is the most comfortable among the protective sheets, offering very high absorption capacity, as well as excellent strength and a nice textile feel.
- Reduces the risk of contamination and improves hygiene.
- Use as complement to other incontinence products, to prevent leaks.
- Available in various sizes, depending on desired usage area:
Width 80 cm, length 140 – 250 cm.
