

*For converting products; coasters, table mats, glass covers, etc.
Fully compostable and biodegradable.*

- 1** To be used as protection against liquids.
- 2** Made of multiple layers of tissue, together with one layer of transparent BIO-film.
- 3** The tissue effectively absorbs the fluid and the film prevents leakage.
- 4** The tissue highlights the printed design on the end-product outstandingly.
- 5** High-quality tissue, bleached. From 100% virgin fibers of TCF-pulp. FSC-certified.
- 6** Strong, resilient and liquid-safe BIO-film. Contains no plastic, only natural materials.
- 7** Fully compostable and biodegradable.
- 8** The rolls are delivered standing on wooden pallets. The pallets are stretched -wrapped.
- 9** Produced in Sweden.

Product code	Composition	Reel width (mm)	Reel diameter (mm)	Core diameter (mm)
LB2320	White tissue 3 x 29 gsm BIO-film 11 micron	100 - 1500	400 - 1200	76
LB2520	White tissue 5 x 23 gsm BIO-film 11 micron	100 - 1200	400 - 1200	76
