

For converting products; coasters, table mats, glass covers, etc.

- 1** To be used as protection against liquids.
- 2** Made of multiple layers of tissue, together with one layer of transparent PE-film.
- 3** The tissue effectively absorbs the fluid and the film prevents leakage.
- 4** The tissue highlights the printed design on the end-product outstandingly.
- 5** High-quality tissue, bleached. From 100% virgin fibers of TCF-pulp (Totally Chlorine Free).
- 6** Strong, resilient, and liquid-safe PE-film (polyethylene).
- 7** Lamination is made with water-based dispersion glue.
- 8** The rolls are delivered standing on wooden pallets. The pallets are stretched -wrapped.
- 9** Produced in Sweden.

Product code	Composition	Reel width (mm)	Reel diameter (mm)	Core diameter (mm)
LE2310	White tissue 3 x 35 gsm Transparent PE 10 micron	100 – 1200	400 - 1200	76
LE2410	White tissue 4 x 23 gsm Transparent PE 10 micron	100 – 1200	400 - 1200	76
LE2510	White tissue 1 x 35 gsm White tissue 4 x 23 g Transparent PE 10 micron	100 – 1200	400 - 1200	76
LE2610	White tissue 5 x 23 gsm White tissue 1 x 35 gsm Transparent PE 10 micron	100 – 1200	400 - 1200	76
LE2810	White tissue 8 x 23 gsm Transparent PE 10 micron	100 – 1200	400 - 1200	76
LG2310	White tissue 2 x 35 gsm Transparent PE 10 micron White tissue 1 x 35 gsm	100 – 1200	400 – 1200	76
